

AUTOMATED RECURRING PAYMENTS

receive your payments on time,
all the time

If You're Not Moving Your Customers To Automated Payments... You're Throwing Your Money Away!

EFT Network's (EFTN) Automated Payment System is the most versatile automated payment system available. It's an easy-to-use, web-based system that offers flexible payment options for your business and customers whose payments are one time or recurring. With Automated Payments, you can perform many of the invoicing and payment tasks electronically. The number of hours spent on some tasks can be reduced or even eliminated.

The Total Cost of Savings For Your Business Using Automated Payment System

Invoices per month = 500
Avg. Cost per invoice = \$2.55
Monthly Savings = \$1,275
Annual Savings = \$15,300

You Could Save Thousands of Dollars!

Replace time consuming and expensive paper-based process with Automated Payments to help your business operate more efficiently and improve cash flow, while providing your customers with the convenience and security of having their bills paid to you electronically.

Key Features

- Web-based, easy-to-use, secure system (No software to purchase)
- 24/7 access of your transactions and check images
- Upload detailed paid data files into your existing accounts receivable system
- Transactions easily re-submitted for payment
- Detailed reports, allows you to obtain the status of all transactions

Benefits

- Receive electronic deposits into your bank account giving you faster funds availability
- Reduce trips to the bank
- Reduce the time and costs to print and mail invoices
- Receive faster advice on NSF returns
- Eliminate the expense of lost revenue due to delinquent accounts

Ahead of the Curve. Behind Our Clients.

AUTOMATED RECURRING PAYMENTS

Receive Your Payments On Time All The Time

One-time payments are utilized for payments that occur on a non-recurring basis.

Weekly payments are continuous payments with a start date, no end date or target amount. Payments will continue to be debited from customer's account until Active box is cleared.

Alternate Weeks provides the user the option of scheduling payments every other week.

Monthly provides continuous payments defined by the Day of Month.

BiMonthly provides for a second payment to be made within the same month.

Quarterly payments have four payments per year. Frequency of payments is determined by the user. Dates can be entered in any intervals.

Bi Annual provides for a second payment to be made within the same year.

Annual provides continuous payments defined by the Day of Year.

About EFT Network, Inc.

EFT Network, Inc., a privately-held company since 1998, has extended its ACH and Check Payment Processing services to businesses of every size and type. EFT Network can help you transition from traditional paper-based payment and billing to electronic solutions. We provide the most cost effective, operationally efficient and flexible receivables management tools available. As one of the largest ACH and check processors, EFT Network processes and clears billions of dollars in electronic and paper transactions each year through our Payment Gateway.

EFT Network's corporate headquarters is located in Hawthorne, New York with remote offices in Georgia, Indiana, Nevada, New Jersey, Oklahoma, and Ohio. EFT Network serves in a variety of capacities with the National Automated Clearing House Association (NACHA), The Association for Work Process Improvement, (TAWPI), the American Collectors Association (ACA), and EastPay.
